# MODI FILTER

◇ SET GLASS ◇

**The ModiFilter Set Glass** is designed for installations using: diesel oil, heating oils, biodiesel or other fuels. Depending on the filter cartridge used, it can filter or separate water. The maximum flow through the ModiFilter Glass filter is 100 L / min. The glass housing (speculum) makes it possible to check the quality of the product. The filter is equipped with a drain valve - decanter thanks to which you can quickly and safely remove dirt to ensure maximum filter life.

## ***product features:***

- ***wide range of applications***
