

Company

Farmtools Ltd. was established in 1980 and it is Finland's leading oil tank company, manufacturing high quality steel tanks for the fuel storage and transportation. Tank manufacturing has started already in 1952 at the factory under the name Ylihärmän Koneteollisuus Oy.

FARMEX® and PROMEX® products are developed and designed to meet the needs of the customer. The end users, such as contractors, road contractors, forestry and peat contractors are satisfied with our products and services.

PROMEX transportable tanks are the best solution for the work at the site or in the forest.

We manufacture new Farmex farm tanks as well as repair the old ones. Our products are Promex transportable tanks and tanks for use in the constructing work, Aino sauna heaters as well as other products for farms and individual use.

Farmtools Ltd belongs to the supreme AAA credit class

Requirements for the supreme class reaching is a significantly better economic indicators, a positive background and a payment history, as well as a sufficient operational volume.
